

S-TRIBE

growing new roots

Look deeply into my eyes and feel this magical vibe. Imagine the ancient Slavic tribe dancing around a bonfire. Listen carefully. The music, the rhythm is our ecstasy. Go into this, follow this, explore this world and the new beautiful, hypnotic light.

We are **growing new roots** in the lighting world offering the new shape with endless possibilities of use in bigger structures, hypnotic tungsten light and saturated colours.

MEET S-TRIBE

S-TRIBE
